

UCARE 4U Patient Webinar 9

CHRONIC URTICARIA CONDITION TOOLS AND RESOURCES AND THEIR USE

Learning objectives:

- A. Provide a Comprehensive Overview of Available Tools: Present the currently available tools for chronic urticaria patients, offering an overview of their characteristics, practical applicability in patients' daily lives, and integration into the treatment process to enhance patient care and management.
- B. Assess and Address Patient Needs to Advance Care: Identify the needs of urticaria patients, as well as explore strategies to address them to improve the quality of life and treatment outcomes for urticaria patients.
